All rights not expressly granted to Biller are reserved by Invoice Cloud and its licensors.

Biller will provide to Invoice Cloud all Biller Data generated for Biller's Customers. Unless otherwise expressly agreed to in writing by Invoice Cloud to the contrary, Invoice Cloud will process all of Biller's Customers' Payment Instrument Transactions requirements related to the Biller Data and will do so via electronic data transmission according to our formats and procedures for each electronic payment type selected in the Biller Order Form. In addition, Biller will execute all third-party applications and enter into all agreements required for the Service without unreasonable delay, including without limitation Payment Processing Agreements and merchant agreements that may be required upon implementation, or later at such time as the Service operates with different or multiple payment processors. Throughout the Term of this Agreement, for "Invoice Types" listed on the Biller Order Form (e.g., real estate taxes, utility bills, parking tickets, insurance premium, loans, etc.), Biller will not use the credit card processing, ACH or check processing of any bank, payment processor, entity, or person, other than Invoice Cloud via electronic data transmission or the authorization for processing of Biller's Customers' Payment Instrument Transactions, for each electronic payment method selected in the Biller Order Form.

Invoice Cloud will maintain compliance with current required Payment Card Industry (PCI) standards and Cardholder Information Security standards.

**3. Account Information and Data.** Invoice Cloud does not and will not own any Customer Data, in the course of providing the Service. Biller, not Invoice Cloud, shall have sole responsibility for the accuracy, quality, integrity, legality, and reliability of, and obtaining the intellectual property rights to use and process all Customer Data. In the event this Agreement is terminated, Invoice Cloud will make available to Biller a file of the Customer Data (to the extent that Invoice Cloud is permitted to provide pursuant to applicable law and PCI-DSS standards), within 30 days of termination of this Agreement (or at a later time if required by applicable law), if Biller so requests at the time of termination. Invoice Cloud will retain Customer Data for a period from its creation for the time frame that is listed in the Biller Order under "Data Retention", and reserves the right to remove and/or delete remaining Customer Data no less than 60 days after termination or expiration except as prohibited by applicable law or in the event of exigent circumstances.

In the event any such intellectual property rights in the Invoice Cloud Technology, the Content or the Service do not fall within the specifically enumerated works that constitute works made for hire under applicable copyright laws or are deemed to be owned by Invoice Cloud, Biller hereby irrevocably, expressly and automatically assigns all right, title and interest worldwide in and to such intellectual property rights to Invoice Cloud. The Invoice Cloud name, the Invoice Cloud logo, and the product names associated with the Service are trademarks of Invoice Cloud or third parties, and no right or license is granted to use them.

Unless Invoice Cloud in its discretion determines otherwise, all fees will be billed in U.S. dollars. If Biller believes Biller's bill or payment is incorrect, Biller must provide written notice to Invoice Cloud within 60 days of the earlier of the invoice date, or the date of payment, with respect to the amount in question to be eligible to receive an adjustment or credit; otherwise such bill or payment is deemed correct. Invoice Cloud reserves the right to modify pricing with respect to applicable fees to be paid under this Agreement, at any time upon thirty days written notice to Biller: a) based on increases incurred by Invoice Cloud on Network Fees from credit card processors, bank card issuers, payment associations, ACH and check processors; or b) if, during the Term, the average credit card payment processed by Invoice Cloud for any three (3) consecutive month period exceeds 110% of the Average Credit Card Transaction \$ specified on the corresponding Invoice Parameter Sheet(s), to the extent that Invoice Cloud incurs increases in Network Fees. This Agreement may be terminated by either party effective at the end of the Initial Term or any Renewal Term by such party providing written notice to the other party of its intent not to renew no less than ninety (90) days prior to the expiration of the then-current term. Additionally, this Agreement may be terminated by either party with cause in the event of a material breach of the terms of this Agreement by the other party and the breach remains uncured for a period of 30 days following receipt of written notice by the breaching party. Upon any early termination of this Agreement by Invoice Cloud as a result of breach, Biller shall remain liable for all fees and charges incurred, and all periodic fees owed through the end of the calendar month following the effective date of termination. Upon any termination or expiration of this Agreement, Biller's password and access will be disabled and Biller will be obligated to pay the balance due on Biller's account. Biller agrees that Invoice Cloud may charge such unpaid fees to Biller's Debit Account or credit card or otherwise invoice Biller for such unpaid fees.

**7. Invoice Cloud Responsibilities.** Invoice Cloud represents and warrants that it has the legal power and authority to enter into this Agreement. Invoice Cloud warrants that the Service will materially perform the functions that the Biller has selected on the Biller Order Form and the Statement of Work, attached hereto and incorporated herein by reference (the "Statement of Work"), under normal use and circumstances, and that Invoice Cloud shall use commercially reasonable measures with respect to Customer Data to the extent that it retains such, in the operation of the Service; provided, that the Biller shall maintain immediately accessible backups of the Customer Data (to the extent that Biller is permitted pursuant to applicable law and PCI-DSS standards). The Service will allow the Biller to offer electronic payment processing in a securely hosted real-time environment. Customers will be able to locate, view and print bills or invoices and payment records online and pay using credit cards, debit cards, digital wallets, and electronic checks.

This SOW contains many products, services, and payment methods. Only the specific products, services and payment methods selected by Biller, as outlined in the Biller Order Form for each Invoice Type, are included in the delivery of products, services, and payment methods.

**2. Data Integration**

The integration(s) matrix for the Biller will include the functionality found in Appendix B.

- a. InvoiceCloud will present bills electronically through a payer portal that is branded for Biller or via an email notification, if the Payer provides an email address.
- b. The electronic invoice presentment will simulate the paper invoice Biller uses and will be available in PDF and/or html format.
- c. The Service may provide the Payer the option of making a payment via credit/debit card, digital wallet, or e-check (EFT/ACH).

- f. Payers will have the option to enroll in Pay by Text:
  - Provides interactive SMS registration and enrollment confirmation
  - Sends notification when new bills are available for viewing and payment
  - Allows for payment utilizing a stored-payment method (default payment method) or payment via URL
- g. The system will accept partial, full, or overpayments as defined by the Biller.

- i. Linking Accounts - After registering with the Service, the Payer will be able to login into their account(s). If the Payer has multiple accounts and uses the same authentication information for all accounts, the Payer will be able to link their account and view from a single registration. - j. The Payer will receive an email confirmation of payment after any payment process.
- k. The Payer will have the ability to search and access historical bills once they register with the Service. The Service will store twenty-four (24) months of rolling history from the point of Biller's first invoice file upload to the Service. This includes invoice history and account history.
- l. Payers who have scheduled a payment or registered for AutoPay will receive email notification from the Service of pending payments.
- m. The Service includes shopping cart functionality.
- n. The Service will allow the Payer the option to elect paperless billing.
- o. A Payer registered for paperless billing will be automatically placed back on paper billing if their email address is undeliverable; notification of the Payer's undeliverable email address will be sent to Biller via email.
- p. Billers will have the option to enable an in-line Donations Invoice Type:
  - Payers can make a one-time monetary donation to a particular fund, in addition to their primary bill payment, which appears as a line item on the transaction receipt.

- Biller may choose from several configuration options including but not limited to, round up, fixed amount, other donation amount, start and end date.
  - IC supports up to 10 unique donation invoice types with logo and informational text box. Changes are made by request through the HelpDesk.

#### 4. **Biller Portal**

The Biller Portal is our comprehensive administrative portal where Biller staff will have access to reporting, reconciliation, view SaaS product release notes and send feedback, customer profile management tools, search real time payments, manage customer email templates, contact support, sign up for training, and other general reporting functions.

- **Customer Profile – Management Tools** (subject to applicable user permissions)
  - Ability to assist a customer with payments using a new or saved payment method

  - Ability to enroll or modify customer enrollment in AutoPay, Paperless, Pay by Text, or Recurring Scheduled Payments
  - Login as Account Owner
  - Re-send first email notifications, send on demand Pay by Text SMS
  - Compatible with POSPay to facilitate EMV transactions

  - View Customer History, including CSR activity on account
  - Facilitate Password Reset
- **User Permissions** – The Biller Portal includes a table of permissions for each individual User, determined by the Biller’s System Administrator. Each permission is applied to a user ID on an individual basis to maximize flexibility. The system administrator can allow or disallow access to functions such as viewing data, creating reports, resending email notices, processing payments, credits or refunds, editing email templates and more. Since it is controlled by Biller administrator, changes can be made quickly on an as needed basis.
- **Maintenance Window** – InvoiceCloud provides the option to create maintenance windows, which are time spans in which users are not allowed to process transactions. If a payment attempt is made during an active maintenance window, the user will be redirected to a page with a message that the system is undergoing maintenance. Biller Portal users with sufficient permissions can manage maintenance window timing and messages as needed. This includes an option to apply a maintenance window to all customer-facing pages, when you need to go further than blocking new payment attempts and restrict all customer access to InvoiceCloud (bill search, login, browsing) during the time span provided. Two types of maintenance windows can be enabled:
  - **Daily Maintenance Window** – a recurring maintenance window that runs daily during a provided time span (from HH:MM to HH:MM).
  - **Scheduled Maintenance Window** – a continuous maintenance window that runs during a provided date range with start and end times (from DD/MM/YYYY at HH:MM to DD/MM/YYYY at HH:MM).

#### 5. **Reporting**

The reports listed below are standard in the Biller Portal. They do not require any customization and are available on demand. **7. Implementation Process**

InvoiceCloud assigns an Implementations Manager (IM) for each project. The IM will be the Biller's primary contact during the implementation process and coordinates all necessary resources from Biller, Biller software company, InvoiceCloud, and any sub-contractors. The IM will provide the Biller with the following documents to facilitate the project:

- a. **New Biller Questionnaire & Questionnaire Key** – Documents critical information needed to setup and initiate the service including information on business rules and feature selection.
- b. **Project Timeline** – Details project schedule and milestones.
- c. **Testing & Training Plan** – This plan walks the Biller through a set of user acceptance testing criteria and facilitates training on the service.

**8. Support**

InvoiceCloud's Client Services team is available to assist you Monday – Friday from 7:00 am – 8:00 pm Eastern Time, excluding holidays. You may submit a ticket (at any time) via Support Central in your Biller Portal, or, during these hours, speak to a Product Specialist who will answer questions, troubleshoot problems, and assist as needed to enable you to get the most from your partnership with InvoiceCloud and your use of the Service. You will also be provided with a special telephone number that you can use should you encounter an emergency after hours. We use the following severity levels to guide our team:

- "Critical Severity" support issues are responded to within 1 hour and must be reported via phone so we can most quickly troubleshoot with you. Examples of these issues include unavailability of the InvoiceCloud portal, platform, integrations, or APIs, or a problem that is severely adversely impacting your ability to use the platform.
- "High Severity" support issues are responded to within 2 hours and should be reported via telephone or by emailing [helpdesk@invoicecloud.com](mailto:helpdesk@invoicecloud.com). Examples of these issues include degraded performance of the InvoiceCloud platform or APIs, although the portal and processing are still available.
- Other support issues are responded to by the next business day and should be reported via telephone or by emailing [helpdesk@invoicecloud.com](mailto:helpdesk@invoicecloud.com). Examples include general questions, feature requests, data pulls, multi-factor authentication resets, integration troubleshooting, etc.

**9. Success Manager**

A Customer Success Manager (CSM) will be assigned to the client during the implementation. The CSM is there to help ensure the Biller receives the maximum value from the platform and has an internal advocate, adoption resource, and point of escalation if/when needed.

**10. Biller Training**

Biller staff will be guided in how to use the system through in-house training, documentation, remote live sessions, and access to our client support team.

- All standard training will be done remotely. InvoiceCloud's training personnel will at minimum provide sessions for Payer Portal, Biller Portal, and Reconciliation.
