Re: E.H. Wachs Valve Maintenance & Pipe Cutting Tools

To whom it may concern,

The E.H. Wachs Company is the original equipment manufacturer of all products manufactured under its brand name and registered trademarks. Many of E.H Wachs products are so unique that they are protected under multiple U.S. trade protections, specifically related to pipe cutting & valve exercising machinery.

E.H. Wachs controls the supply of their products through a team of direct personnel, localized dealers and a factory service center. We restrict these channels so that products and customers receive the very best attention by individuals properly trained with this equipment. In Ohio, with very limited exception, Bain Enterprises would be your factory direct outlet to purchase.

To the best of our knowledge, no other vendor manufactures these or compatible items. Please let me know should you need further details.

Yours Very Truly,

Ken Redding
