

RESOLUTION ACCEPTING AND FILING THE ANNUAL PERFORMANCE REPORT OF THE ENGINEER FOR 2025

WHEREAS, in accordance with Ohio Revised Code Section 5543.02, the County Engineer has filed the Annual Report of the Engineer for calendar year 2025 for the inspection of the Board; and

WHEREAS, said report contains the condition of the county roads, bridges and culverts, and estimates the probable amount of funds required to maintain and repair or to construct any new roads, bridges, or culverts required within the county; and

WHEREAS, Said report has been duly examined by this Board; now

THEREFORE, BE IT RESOLVED, By the Board of Commissioners of Ashtabula County, Ohio, that the Ashtabula County Engineer's Annual report for 2025 is hereby accepted and filed.

IT IS HEREBY CERTIFIED that the foregoing is a true and correct transcript of a resolution acted upon and duly passed by the Board of County Commissioners of Ashtabula County, Ohio, on the date noted above.

Lisa Hawkins, Clerk of the Board
Board of County Commissioners
Ashtabula County, Ohio

2025 ANNUAL REPORT

ASHTABULA COUNTY ENGINEER'S OFFICE

“The County Engineer annually submits a report containing the accomplishments of the year prior. The following report highlights the accomplishments of the Engineer’s Office and Highway Department during 2025. I remain committed to the mission of providing residents of Ashtabula County with a safe and efficient county highway system.”

Timothy T. Martin, P.E., P.S.

The South Ridge Rd. Bridge rehabilitation project began in 2025 at a total cost of \$2.15M with hopes of being completed. The contract was awarded to Marucci and Gaffney Excavating Co. of Youngstown. Due to the volatility of the steel market, beam delivery pushed the completion of this project to 2026. This contract is 80% Federally funded.

The Highway Department constructed 7 large diameter culvert replacements. Two more 16’ precast box structures were built and installed at 32’ wide. All structures are designed to current standards to provide a wider roadway width to enhance safety.

A larger portion of the budget was allocated to the resurfacing of roads in 2025. Leveraging some OPWC funds allowed us to pave nearly the road miles accomplished prior to the inflationary cost increases. To maintain our roads at the current level, about 30 miles need resurfaced annually. The Highway Department cold mix paved nearly 12 miles and a contract to hot mix pave about 14 miles was completed by Koski Construction.
