**Subject:** soil scientist quote

It is difficult to give an exact quote. My company charges by the acre and distance from the office. In bedrock controlled areas I use an excavator (it is required in the state rules) which is an additional expense I have no control over.

Costs are usually \$650.00 to \$750.00 in non-bedrock controlled areas. Some pricing is higher depending on acres and distance traveled.

I am sorry I cannot be more specific.

Steve Prebonick CPSS, CPSC  
Soil Scientist  
Champion Soil Services Inc.

## Request for Quote-Soil Scientist

Ashtabula County has received an OEPA HSTS WPCLF award to assist income qualified homeowners with replacement of failing septic systems. Ashtabula County Community Services & Planning Office will be qualifying applicants and securing the professionals and contractors to complete the septic system replacements. Ashtabula County will be paying for services for the qualifying home-owners.

Ashtabula County is seeking a qualified soil scientist to evaluate all qualifying properties.

Scope of Work: Evaluate the soil on the parcels for siting a household sewage treatment system. This information will be provided to the home-owner, Ashtabula County Health Department and Ashtabula County Community Services for the design of a replacement septic system. It is estimated that 10 septic systems will be replaced with the current grant funds available. Parcels to be evaluated will be located throughout Ashtabula County and will be determined by Ashtabula County Community Services and Planning Office.

Per the terms of the HSTS WPCLF program, Ashtabula County will enter into a contract with the selected soil scientist who will need to provide all appropriate information in the attached contract.

Time Period: Upon contract signing – November 30, 2022

---
